ENGINEERING A SUSTAINABLE FUTURE

POLICY SERIES BREAKFAST FORUM

ENGINEERING A SUSTAINABLE FUTURE

Engineers are uniquely positioned to provide innovative solutions to the challenges of planning and designing systems that use resources efficiently and sustainably. This event will draw attention to ways in which engineers are creating technologies, enhancing public safety and spurring growth in an environmental and economically sustainable manner.

Panel Moderator: Carl Bodimeade, P.Eng., Chair
Ontario Coalition for Sustainable Infrastructure (OCSI)

Wednesday, November 28, 2012

7:30 a.m. - 12:00 p.m.

The Toronto Board of Trade, First Canadian Place

77 Adelaide Street West, Toronto

http://www.ospe.on.ca/events/event_details.asp?id=269419

KEYNOTE SPEAKER:

- Stephen Colavincenzo, P.Eng., Chief of Acoustics and Vibration, Bombardier Inc.: "The Q400 Airliner: Sustainability in Aviation"

PANELISTS:

- Jim Farrell, P.Eng., Managing Consultant, Hatch: "Integrating Sustainable Development into the Project Lifecycle"
- Fernando Carou, P.Eng., Senior Engineer, City of Toronto: "Sustainable Urban Energy Solutions"
- Art Heidebrecht, P.Eng., Acting Dean, Faculty of Engineering, McMaster University: "Sustainability in Engineering Education"
- Alex Gill, Executive Director, Ontario Environment Industry Association, "Challenges in Making Sustainability Real (and Profitable)"
